

# FACT SHEET

## UNITED STATES AIR FORCE

**375th Airlift Wing  
Public Affairs Office  
Scott AFB IL 62225-5004**

**Phone: (618) 256-4241/4206  
FAX: (618) 256-8837**

### **OEF/OIF Support**

#### **United States Transportation Command**

Since the beginning of OEF, USTRANSCOM has coordinated the movement of all military logistics in a theater half way around the world. With more than 1,038,097 people being moved, we are very close to having moved every man, woman and child in the state of Wyoming (population approximately 490,000) twice.

With airlift alone, USTRANSCOM moved over 827,657 short tons of cargo by air. That is like moving about 465,000 Ford Taurus automobiles!

Delivered more than 92 million meals. That's more than enough to take everybody from California, Texas, New York and Arkansas out to dinner with you. But, it was done at the cost of only 15 cents per meal by shipping these meals over sea.

- More than 1.7 billion gallons of fuel by ship to be used by air/land/sea forces
- 278 ships and 2 million tons of combat cargo moved to the Persian Gulf
- 206,495 containers moved worldwide
- More than 8,775 20-foot containers of high explosive ammo to Iraq without an incident
- Operation NOBLE EAGLE – More than 8,600 sorties, refueling aircraft with approximately 307 million pounds of fuel

#### **Air Mobility Command**

Air Mobility Command is providing Global Reach for America in its efforts to support the Global War on Terrorism. To date, the airlift operation into Afghanistan is the third largest effort of its kind, ranking behind Operation VITTLES of the Berlin Airlift and Operations DESERT SHIELD/DESERT STORM.

At the peak of their deployment, AMC launched an aircraft every 12 minutes – 24/7 – over 12 weeks. Air refuel tankers and airlift assets have flown more than 550 million miles in support of OEF and OIF. That's like traveling around the earth 22,000 times.

Despite the challenges of landlocked Afghanistan, the work of hauling personnel and supplies to this war-torn country has not stopped. The mission continues to be reinforced nearly entirely by air. Other statistics include:

- Total missions flown: 25,460
- Total number of troops moved: 1,038,097
- Total tons moved: 827,657
- Total air refueling missions flown: 7,493
- Total air refueling receivers serviced: 8,841
- Total tons of humanitarian daily rations (HDR) delivered: 2,206

### **375th Airlift Wing Support for OEF/OIF**

Scott AFB has deployed more than 1,350 airmen since September 2001. Aeromedical evacuation is a core capability of the 375th AW and 932nd AW. The 375 AW has provided nearly 57 percent of the active duty aeromedical evacuation capability in theater during OIF; making up 17% of the AE capability in theater. With 599 AE/CCATT in country, the 375 made up 17% of the total force.

The 775<sup>th</sup> EAES first ever CONUS expeditionary AE Squadron stood up in April 2003 with 131 personnel from 18 units at two locations – Scott and Andrews. They flew on existing C-9A from April to July 2003 aircraft. The 775<sup>th</sup> deactivated at Scott July 2003, but a detachment remains at Andrews.

Bore AMC's first ever expeditionary AE Squadron and Det for execution of the Integrated CONUS Medical Operations Plan for OIF: Flew 132 mission; Lifted 2,000 plus casualties. Led 585% AE mission increase. Orchestrated 2,162 patient moves for OIF

After the retirement of the C-9, the 375 AES shifted CONUS OIF patient redistribution to a spoke and hub using KC-135s from Andrews to Scott and Travis. Then using C-130s to distribute from each of the hubs. The Detachments at Andrews (Det 1) and Travis (Det 2) are now officially under the 375 AES, but staffed by ANG and Reserve.

- 375 AW makes up 1/4 of the active duty contribution to the AE mission
- As of December 2003, the total number of medical evacuations from OIF is 10,854
- 375 AES served between 800-900 wounded patients returning from OIF
- 375 MDG/DS deployed in CONUS to support Dover mortuary services during OIF
- Blood Donor Center supplied over 33% of the entire blood supply needed during OIF
- Largest C-21A deployment since 1st Gulf War; 7 aircraft, 15 crews, 2 msn CCs, 2 QAR, 2 LS, 4 DV planners—250 combat support hours for CENTCOM CC/CD/CFACC and UNIMOVIC/OIF imagery
- Orchestrated deployments of 200 prime BEEF mission ready engineers to SWA/OEF/ONE/OIF
- SFS deployed 75 members to Al Udiid in support of OEF; 30 members deployed to OIF
- Deployed 6 C-9As/13 crews/ops cell/support personnel and \$533K plus of equipment 12 hours after bombing in support of Operation NOBLE EAGLE

### **932nd Airlift Wing Support for OEF/OIF**

The 932nd Airlift Wing is an integral part of the 375 AW mission. They partner with us an average of 47% of our daily aeromedical evacuation mission.

- 400 out of 1,000 Reservists mobilized

### **126th Air Refueling Wing Support for OEF/OIF**

939.4 flying hours; 202 sorties
